

Rainbow through the clouds

There's always a tomorrow for me
Even when I don't want there to be
Leering over me
A shadow of a doubt
Another cloud when I'm already shrouded in fog
Sometimes there's a rainbow between the clouds
I have to remember that
It can always get worse
But it can also get better

That's why I'm still here
Still fighting this battle
Grasping onto straws that aren't there
Whatever straws I can conjure up in my mind

Still kicking
Even if you can't see
Because I'm paralyzed
Forever fighting the demons inside
The monster feeding on my insides
When every moment on this earth is agony
Rainbows are still sweet to see
